

XTM 201DI MULTI-PROCESS DIGITAL INVERTER

INTRODUCING THE NEW XTM 201DI MULTI-PROCESS MIG INVERTER

MIG, DC TIG or MMA, this machine does it all. Ideal for welding a range of materials, the XTM 201Di allows the welding of steels, stainless steels and aluminium using MIG, DC TIG or MMA processes

The multi-language digital user interface rapidly gets you to the correct machine setting with minimal process knowledge, on site or in the workshop.

The helpful display guides the user through machine set up, from how to connect the machine for the chosen process, right through to the correct settings for the particular material thickness.

The machine package includes a remote control MIG torch which allows MIG parameter adjustment directly from the torch.
