

Product Specifications

Water-Jel Wall Panel

- Complete burns system at your fingertips
- Provides a comprehensive range of Water-Jel products for treating every kind of burns injury
- Easy to use products contained in a wall mounted panel with clear dust proof doors
- Ideal for use in A&E Departments, GP and Health Centre Surgeries, Industrial First Aid Rooms and Commercial Kitchens

Water-Jell Wall Panel is a complete burns system ideal for any working environment and highly recommended for use in A&E Departments, GP and Health Centre Surgeries, Industrial First Aid Rooms and Commercial Kitchens. Water-Jell Wall Panel provides full product visibility for immediate access in case of an emergency. The products are covered with clear dust proof doors to keep the contents fresh. Water-Jel Wall Panel contains ideal product combinations: Burn Jel for minor burns and dressings for more serious burns. The dressings are provided in multiple sizes in order to cover all types of burns. Water-Jel Wall Panel is highly visible and easy to recognise and can be mounted virtually anywhere. Refills are available to purchase separate.
