

Water-Jel Heat Shield

- Designed to put out a fire on a burn victim, stops burn progression and cool the skin, relieving pain and protects the burn area from contamination
- The 100% worsted wool blanket with intercellular weave can absorb up to 13 times its own weight
- The blanket is soaked in a water-based/water-soluble, bacteriostatic and biodegradable gel
- Can be placed directly over clothing and won't stick to burn injuries
- Can be used to totally wrap a burn patient or be used as protective shield in a fire rescue to extinguish flames and smouldering clothes or dangerous white phosphorous
- Easily portable in a durable plastic container.
