## MACSOLE 1.0 FXH

Very versatile non-magnetic model for construction and civil engineering, public services, hot ground, humid environments

Article ID: 62923

EN ISO 20345: 2011 – S3 CI HI HRO SRC

Sizes: 36 – 48

### Benefits overview

- Sole: Rubber MACSOLE® 1.0 sole, exceptional grip, resistant to oils and hydrocarbons, resistant to heat on contact (HRO), rubber-coated end piece. Microgrip profile adapted to winter conditions.
- Upper: full-grain leather, reflectors, derby cut adapted to all foot shapes, reduced number of seams. Waterproof leather collar and gusset 1 mm thick, comfort foam 3 mm thick. Plastic eyelets.
- Lining: orange textile mesh, highly abrasion-resistant, very good absorption of water vapour, quick-dry.
- Toe cap: metal-free
- Penetration-resistant mid-sole: metal-free
- Hygienic and comfortable insole: PU, removable, anatomical, perforated. Ultra microfibre upper, highly abrasion-resistant, allows good wicking of perspiration.
- Weight: 730 g in size 42
